

The diagram illustrates the machine learning workflow and data split. A horizontal bar is divided into three sections: 'Train', 'Validation', and 'Test'. An arrow points from the 'Train' section to the 'Validation' section, and another arrow points from the 'Train' section to the 'Test' section. Below the bar, a bracket labeled 'Model Selection' spans the 'Validation' and 'Test' sections, and another bracket labeled 'Model Assessment' spans the 'Test' section.
